# UTokyo Wi-Fi

## To Use Wireless LAN

You can use UTokyo Wi-Fi in the Komaba Library. However, the Wi-Fi connection may sometimes be insufficient, depending on usage conditions. You will need to reissue a UTokyo Wi-Fi account each year.

### Applying for UTokyo Wi-Fi Account

Access the URL below and apply for a UTokyo Wi-Fi account.

## Non-UTokyo Members

**E-resources such as databases, e-journals/books contracted for UTokyo members are unavailable.**

- Those from universities/institutions participating in eduroam can use eduroam. Please obtain an account at your institution.
- Those who have a short-term guest Wi-Fi account issued by UTokyo members can use the network with SSID "eduroam."
- Non-UTokyo members can use the wireless LAN with SSID: UTokyo-Guest. It is a service provided by SoftBank.

\*The university does not provide support for this service.

# Using PCs in the Library

## Using ECCS Terminals

You can use the Educational Campus-Wide Computing System (ECCS) terminals at the Media Park on the 1F of the Komaba Library.

You need a UTokyo Account to use the ECCS.
