## 理事会

事務総長の統括による  
監督と戦略的方向性の決定

加盟国とEUから1名ずつ出席、事務総長が議長を務める会合では、総意による決定が行われます。年に1度、閣僚理事会が開かれ、主要な問題を論じ、OECDの優先すべき取り組みを決定します。

## 委員会

各国の専門家による議論、観  
察、ピア・レビュー

経済、貿易、科学、雇用、教育、金融市場など、特定の政策分野における研究を深め、進歩を審査します。約250の委員会、専門家グループがあり、約4万人の官僚が参加します。

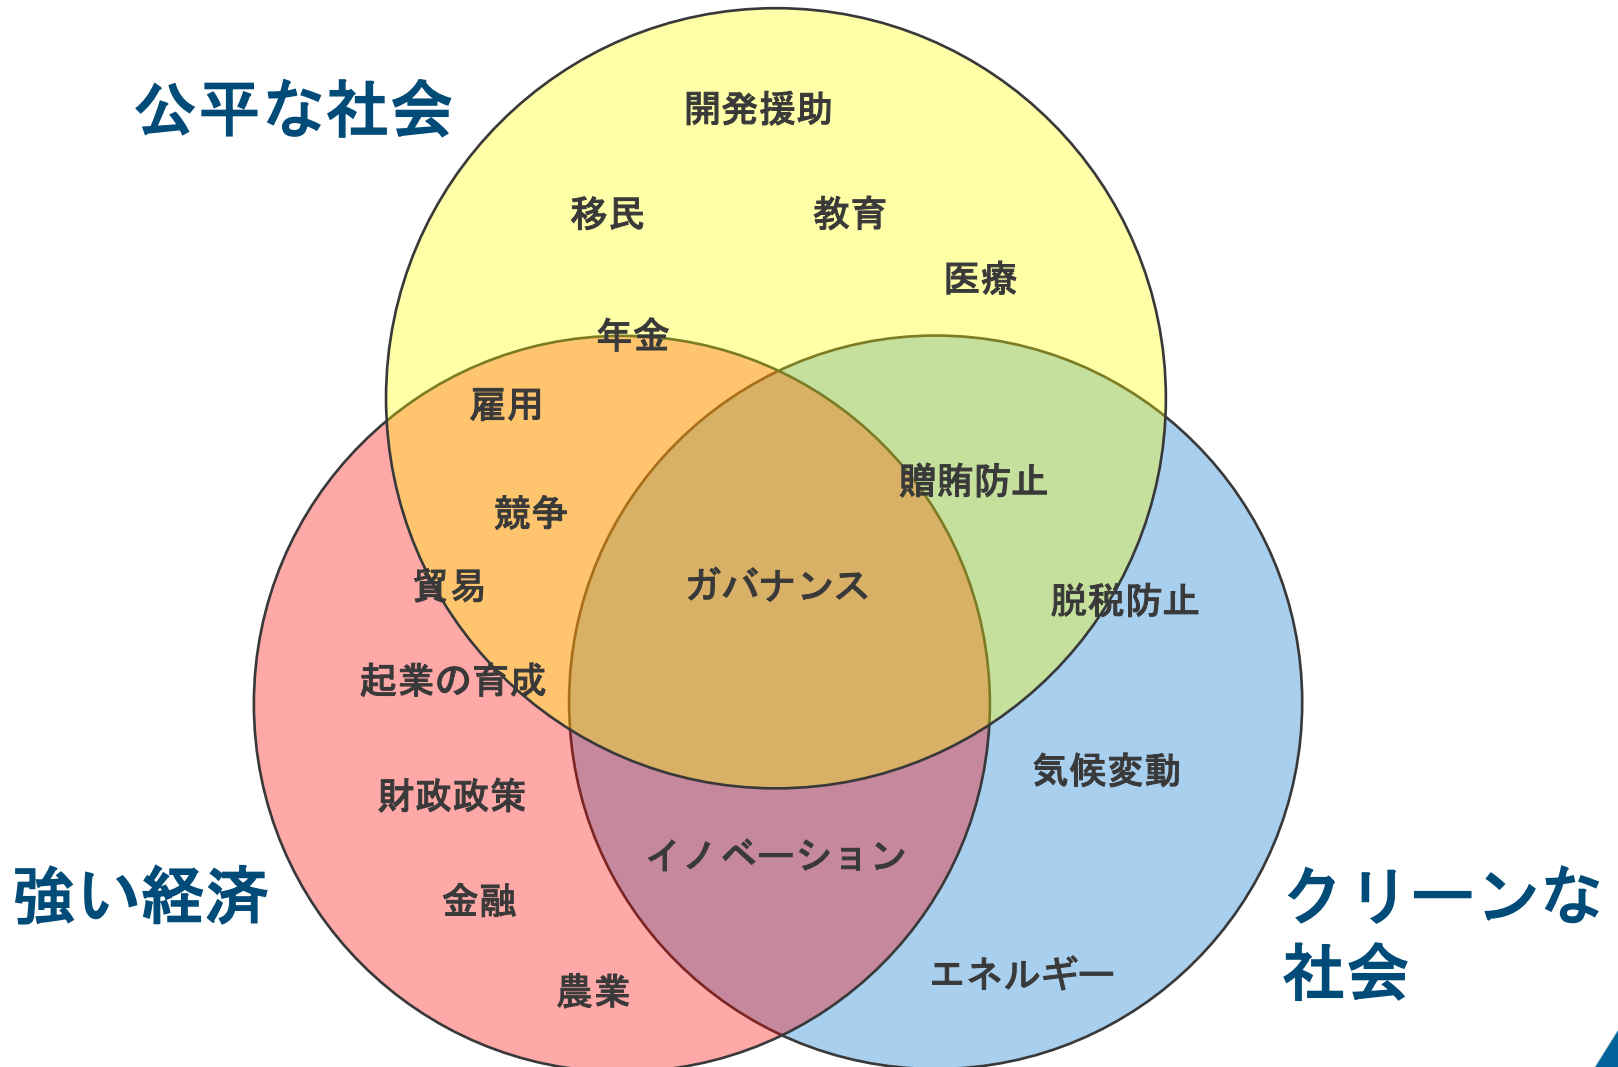

## 事務局

研究、分析、政策提言

パリにある事務局では、約2500人の職員が委員会活動をサポートし、OECD理事会が決定した優先順位に沿って研究をしています。職員にはエコノミスト、弁護士、科学者など、様々な職種の人が含まれています。また、パリ本部以外に、東京を含む4都市にセンターがあります。

- 2021
  - 2021, 号数 2
  - 2021, 号数 1
  - 2021, Suppl 1
- 2020
- 2019

The OECD Economic Outlook is the OECD's twice-yearly analysis of the major global economic trends and prospects for the next two years. Prepared by the OECD Economics Department, the Outlook puts forward a consistent set of projections for output, employment, government spending, prices and current balances based on a review of each member country and of the induced effect on each of them on international developments.

Coverage is provided for all OECD member countries as well as for selected non-member countries. Each issue includes a general assessment, and a chapter summarising developments and providing projections for each individual country. An extensive statistical annex with a wide variety of variables is available on-line.

## Japan 1

1. The synthetic consumer index is calculated by the Cabinet Office to show monthly macro-level private consumption trends by using both demand and supply side statistics. The consumer confidence index is the average of four sub-indicators for overall livelihood, income growth, employment, and willingness to buy durable goods, on a scale of 1-100. Shaded areas show the periods when states of emergency were declared.

2. Consumer price indices exclude the impact of the October 2019 consumption tax increase. The core price index excludes energy and fresh food related items from headline CPI. The trimmed average is calculated by excluding the top and bottom decile of the price changes (measured by items' weight in the CPI).

Below the navigation bar, a dark banner contains the text "Discover key SDG-related policy content" and a paragraph: "Access key policy content and broaden your knowledge of the Sustainable Development Goals (SDGs). Explore the key topics behind the SDGs and the connections between them through key analysis and data." Below this banner, a section titled "Browse an SDG" with a left-pointing arrow icon is followed by the text "to consult OECD country data, key topics and policy content". The main content area displays a grid of 17 SDG icons, each with its number, name, and a representative icon. The icons are arranged in three rows: the first row contains goals 1 through 6, the second row contains goals 7 through 12, and the third row contains goals 13 through 17. The word "SUSTAINABLE" is partially visible at the bottom right of the grid.

Income Distribution Database

#### Database Specific

#### Abstract

#### Compare your income

What's your perception of income inequality? The OECD tool Compare your income allows you to see whether your perception is in line with reality. In only a few clicks, you can see where you fit in your country's income distribution. In June 2020, an updated edition was released to explore how people's perceptions of inequality impact their willingness to support redistribution and to see what areas users would prioritise for public spending.

#### Other Aspects

#### Recommended uses and limitations

The OECD Income Distribution database (IDD) has been developed to benchmark and monitor countries' performance in the field of income inequality and poverty. It contains a number of standardised indicators based on the central concept of "equivalised household disposable income", i.e. the total income received by the households less the current taxes and transfers they pay, adjusted for household size with an equivalence scale. While household income is only one of the factors shaping people's economic well-being, it is also the one for which comparable data for all OECD countries are most common. Income distribution has a long-standing tradition among household-level statistics.

Below the search bar is a dropdown menu labeled "All Themes". The main content area is a list of search results under various categories. A red box highlights the search bar and the "poverty" text in the search results. A red callout bubble points to the search bar with the text: "ここにキーワードを入れると、データベースの名前を対象に検索することができ、キーワードがハイライトされます。" (When you enter a keyword here, you can search for database names, and the keyword will be highlighted.) Another red box highlights the search result "by country - POVERTY" under the "Income distribution and poverty" category. A red callout bubble points to this result with the text: "こちらが各国の貧困率を収録したデータセットです。" (This is the data set that records the poverty rate of each country.)
